Mule Creek's LGBTQ Community

By G. Anne Smith
Editor

Numerous studies have shown that LGBTQ+ individuals are at a higher risk of mental health issues than the general population. This is due to a variety of factors, including discrimination, harassment, and violence. It is important for the LGBTQ+ community to have access to mental health resources and support. This is why it is so important for the LGBTQ+ community to have access to mental health resources and support. This is why it is so important for the LGBTQ+ community to have access to mental health resources and support.
